DEATH OF MRS. COOK .- In the proper place for such announcements, in this issue of the MINER, will be seen a record of the death of Mrs. Hattie E. Cook, wife of our friend Hon. E. J. Cook of this place, which took place at their residence on Thursday morning, May 18th, 1876.

We have seldom, if ever, in the line of ournalistic duty, been called upon to chroncle the death of one whose life has been so pure, so modest, so unobtrusive and so much beloved by those who were so fortunate as to enjoy an intimate acquaintance with her. Among the foremost in every good work she was yet willing to leave the direction to others and was content to do her part without ostentation. A kind, affectionate and loving wife and mother, her chief happiness was with her family, yet she was ever mindful of the courtesies due to others and never failed to render them on all proper occasions.

Her husband, now bowed down beneath a weight of sorrow almost unbearable, and the two children she leaves to the care of other hands and hearts in the superintendency of their education and direction of their conduct, have the sympathies of the people of Prescott in an unusual degree.

The memory of Mrs. Cook will long remain green in the hearts of her friends, and her example in life a sweet incense, and stimulus in others to imitate her faultless life.

School Matters.

Some of our friends, it has seemed to us, have been somewhat captious with reference to the building of the new school-house. The position of School Trustee is never profitable, and often thankless; yet it is a position that somebody must fill, and we regret to see them embarrassed by opposition in their hudable and honest efforts to do the very best that can be done for the people. As a business proposition, every man who thinks must know that there is no investment of a public character that can be made to yield as good returns to tax-payers and property owners of a town or village as that judiciously expended in building a good, substantial and commodious school-house, where all the children of all the people, whether rich or poor, can receive a liberal common-school education. We have in our own experience known the population and number of houses to double in three years after a \$20,000-school-house had been built in a town that had been at a stand-still or on a decline for the past eight years, and with no apparent cause for the improvement other than that people at once acquired confidence in the stability of the place from the appearance of the school building, and moved there with their families and bought property, with the assurance that it was a good place to educate their children; and thus property increased in price and the esent at rehersal we can assure the public town from a dying condition revived and is flourishing to-day. Prescott, if she choose, can become the great educational center of Arizona and New Mexico. She has the cli-mate, the health, and all the natural surgroceries and liquors, will devote himself, roundings to make her the seat of colleges the balance of the Summer at least, to and schools that would attract the wealthy and well-to-do of other sections who would seek a residence here for purposes of health A. Pettibone & Co. will, on the 1st of June, and pleasure, if by so doing they could combine the education of their children. Many of the wealthier classes of Sonora would also seek to give their children an English education if such facilities were near at hand, in view of these possibilities, and by no means improbabilities, it behooves us to encourage the natural tendencies to I stated that the reasons which induced me to depart from such results by making a beginning. We have the climate, the health, the water, the timber, the society, and all other necessary elements, including the largest white population of any town in the two Territories, and why not build a school-honse by taxation, as the people have voted, and not annoy the Trustees by captions objections and suggestions calculated only to confuse and retard the progress of so needful a work.

CONTRACT LET.-Baker & Throne were awarded the contract for building the new school-house of brick, as per specifications on file in the office of the County Superintendent, on Wednesday, for the sum of \$11,894.75, payment to be made as follows: polis, and I will endeavor to do my part, if elected. When the foundation is completed to the satisfaction of the Trustees and accepted by them, fifty per cent. of the estimated cost of said foundation as per contract. When the brick walls are up, the roof on to the satisfaction of the Trustees and accepted by ool building is to be immediately put up, them, fifty per cent, of the estimated costas before, and when the building is fully completed, according to the plans and for nearly thirty-six weeks, with only specifications on file, ready for use, acweek's vacation, and considering the cepted by the Trustees, and free from all lack of room in the old house, this ac- liens and claims against it, then the balance is deemed most advisable. Mr Sher- is to be paid and the contract ends. Baker has offered to lose his salary for the re- a Throne have sub let the foundation and ider of this term, and in the meantime brick-work to Allen, Winters, and Toftman, take a trip to Philadelphia, to see the for \$6,200. The contractors propose, at any time when the Trustees will pay them the whole instead of fifty per cent, due at the time, to give good and sufficient bonds for comes to die, can say to himself "the due. The building will be 32 ft. 2 in. by dot be said to have a lived in it," 73 ft. 6 in. on the ground, with a tower 20 by not be said to have lived in vain; and 20 ft. square,-two stories high, each 14 feet ver has done much to alleviate suffer. in the clear; two rooms and a hall below and a hall 30 by 70 feet above, hard finished. etc. The trustees have decided to raise by taxation only half the amount voted at the recent election, viz: \$3,000 instead of \$6,000, and incur an indebtedness, to be paid hereafter, to cover the balance. This appears to be the best plan that could be devised, and as it is in the nature of a compromise it is hoped all will sequiesce and cheerfully join in helping the work along. When completed, this will be a building we can all be proud of, and none will ever have cause to regret having encouraged its construction.

BREVITIES,-Frank Shultz has sold half his claim on the Evening Star to Anders & Rowe for \$2,000 .- Jack Moore's new discovery, near Black Canyon, he calls the Tiptop.-J. W. Simmons has discovered a 5-foot gold-bearing ledge on Willow Creek, which assays from \$100 to \$400 to the ton in gold, he calls it the "Home." --- We shall endeavor to give a somewhat extended account of Mulvenon & Roach's smelting works next week .--- The building in front of the MINER office, being finished by H. Ellis, will be occupied we hear by N. Ellis as a money-brokerage; the other building on the same lot is being built under a threeyear's lease from Ellis by Winder, as a paint shop .- J. W. Davis thinks of erecting a barber-shop on the other corner of his Silks, lot; and M. Wormser has signified an intention to build a fine store-house on the site of the Champion saloon.

Orlando Allen, of the butcher firm of C. T. Rogers & Co., is erecting a nice family residence on Carlton street, near Marina, on a portion of his property now known as "Las Flores." It is a beautiful place, and the house when completed will be a credit to Business Suits. that part of the town. We took a look at it yesterday and were pleased to see that he appreciates comfort, as evinced by the construction of fire-places instead of stoves in the sitting-rooms. His avowal that he is building it to rent, never fails to bring the tip of the hearer's thumb to the tip of his nose, while a spread hand performs a semi-circle in the air in front, as though he would say "too thin,"

PROFESSOR FISCHER'S CONCERT.-The concert and ball given by Professor Fischer on Saturday night last, gave entire satisfaction to the large audience that crowded Campbell & Mee's hall. Want of space prevents us from noticing, as we should, Miss Williams, Mrs. Raible, Miss Mitchell, and Messrs Pettibone, Kelley and DeJarnac, who each contributed so materially to the pleasure of the occasion.

Bill Simmons' train yesterday brought several tons of ore from the Giant mine and

ANNOUNCEMENTS.

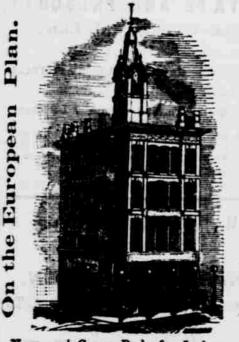

For Congress.

To the People of Arizona : I most respectfully offer myself as a candidate for Delegate to Congress, at the Election in November next In a similar announcement by me, nearly two years ago, the business of private life, that I might devote some at-tention to the general welfare, would be explained by me at such times and places as my friends would indicate. That promise was fulfilled; and I now state for the benefit of "whom it may concern," that I shall, prior to the election, make the tour of the Territory and set forth, as well as I am able, our wishes and our wants, and what I purpose doing in case I am elected. Since our last elec-tion, there has been a marked and wonderful improve tion, there has been a marked and wonderful improve ment in our mining interests, which form the basis of our prosperity and happiness—that is, if you understand a prosperous people to be a happy people—and how great these changes are and how vast the possibilities which loom ahead, it shall be my province and my delight to delineate in the course of the coming campa gn.

With my profound acknowledgments to those who so generously supported me at the last election, and with the hope that their ranks may be overwhelming in the coming contest, I present myself as an independent candidate for Congress, and invite every voter in the Territory to "toe the scratch" in behalf of its interests at the
